

# AAA Battery Powered Motion Sensor Wifi ZigBee Human Infrared Sensor Module Human Motion Sensors With Sound and Light Alarm

## PIR

## Sound-Light Alarm

130DB

Infrared detection alarm,  
130DB large volume alarm, 4 modes, safety  
protection

Work with Amazon Alexa

Work with Google Assistant

Name	AAA Battery Powered Motion Sensor Wifi ZigBee Human Infrared Sensor Module Human Motion Sensors With Sound and Light Alarm	
Product type	Smart PIR motion sensor with Sound and Light Alarm	
Networking form	2.4GHz Wifi / ZigBee 3.0	
Alarm volume	130DB	
Alarm mode	Acousto-Optic Mode, Silent Mode, Matte Mode, Flash Mode	
Standby current	≤20μA	
Standby time	12 Months	
Power input	AAA*2 battery (Not included)	
Operating temperature	-10℃~+40℃	
Operating humidity	20%~85% RH	
Storage temperature	-10℃~+60℃	
Storage humidity	0%~90% RH	
Product size	89mm*36mm*29mm	
Appearance packaging	Smart PIR Motion Sensor *1 / User Manual *1 / Double-sided tape *1 in White carton neutral packaging	

## • **Smart PIR Motion Sensor Product Manual**

### **Access settings:**

#### **Note:**

**Add ZigBee gateway before adding this ZigBee PIR Sensor.**

**If you choose Wifi PIR Sensor, you could add the sensor directly without ZigBee gateway.**

- Install the AAA\*2 battery (Shipping not included) on the device and make sure the mobile phone is connected to the network 2.4G WIFI.
- Enter the distribution network mode, or press the reset button (the reset button is on the back of the product) with the pin for more than 8 seconds, and the device indicator will flash to enter the distribution network mode. After the distribution network is successful, the distribution network indicator will go out.

### **ZigBee Version PIR Sensor Next Setting:**

- Open the app, click the gateway, and add a sub device under the gateway. Make sure that the system automatically searches for the device after the indicator light flashes. After waiting for one minute, the system can automatically add the device.

### **Wifi Version PIR Sensor Next Setting:**

- Open the app, click "Add Device". Make sure that the system automatically searches for the device after the indicator light flashes. After waiting for one minute, the system can automatically add the device.

## • **Features:**

With 130db volume loud alarm.

With LED light alarm, red and blue light flashing.

Infrared detection.

With Reset key. (Click alarm; Double click to cancel the sound; Press and hold for 8 seconds to reset.)

## • **Support in-app setting:**

Support setting alarm volume;

Support setting alarm duration;

Support setting PIR sensitivity;

Support setting audible alarm whether open or closed;

Support setting light alarm whether open or closed;

Support pushing notifications, alarm or normal;

Support viewing alarm records;

Support scene linkage;

Support low power alarm;

Support sharing device with your family;

### • **ZigBee Human Motion Sensor Quality Assurance**

**Under the normal use of users, the manufacturer provides free year product quality warranty replacement.**

The following conditions are not covered by the warranty:

- Damage caused by external factors such as artificial damage or water inflow;
- The user disassembles or refits the product by himself (excluding panel disassembly and assembly);
- Beyond the technical parameters of this product losses due to force majeure such as earthquake or fire;
- Installation, wiring and use not in accordance with the manual;
- Beyond the scope of the product's parameters and scenarios.

# High-Pitched Alarm

**130DB** 

When an anomaly is found, the infrared acousto-visual alarm emits a 130DB large volume alarm, and the red and blue lights alternately flash

## 4 ALARM MODES

# Low Power Consumption

When the battery is too low, the APP pushes a low battery reminder notification

\*Shipped without batteries

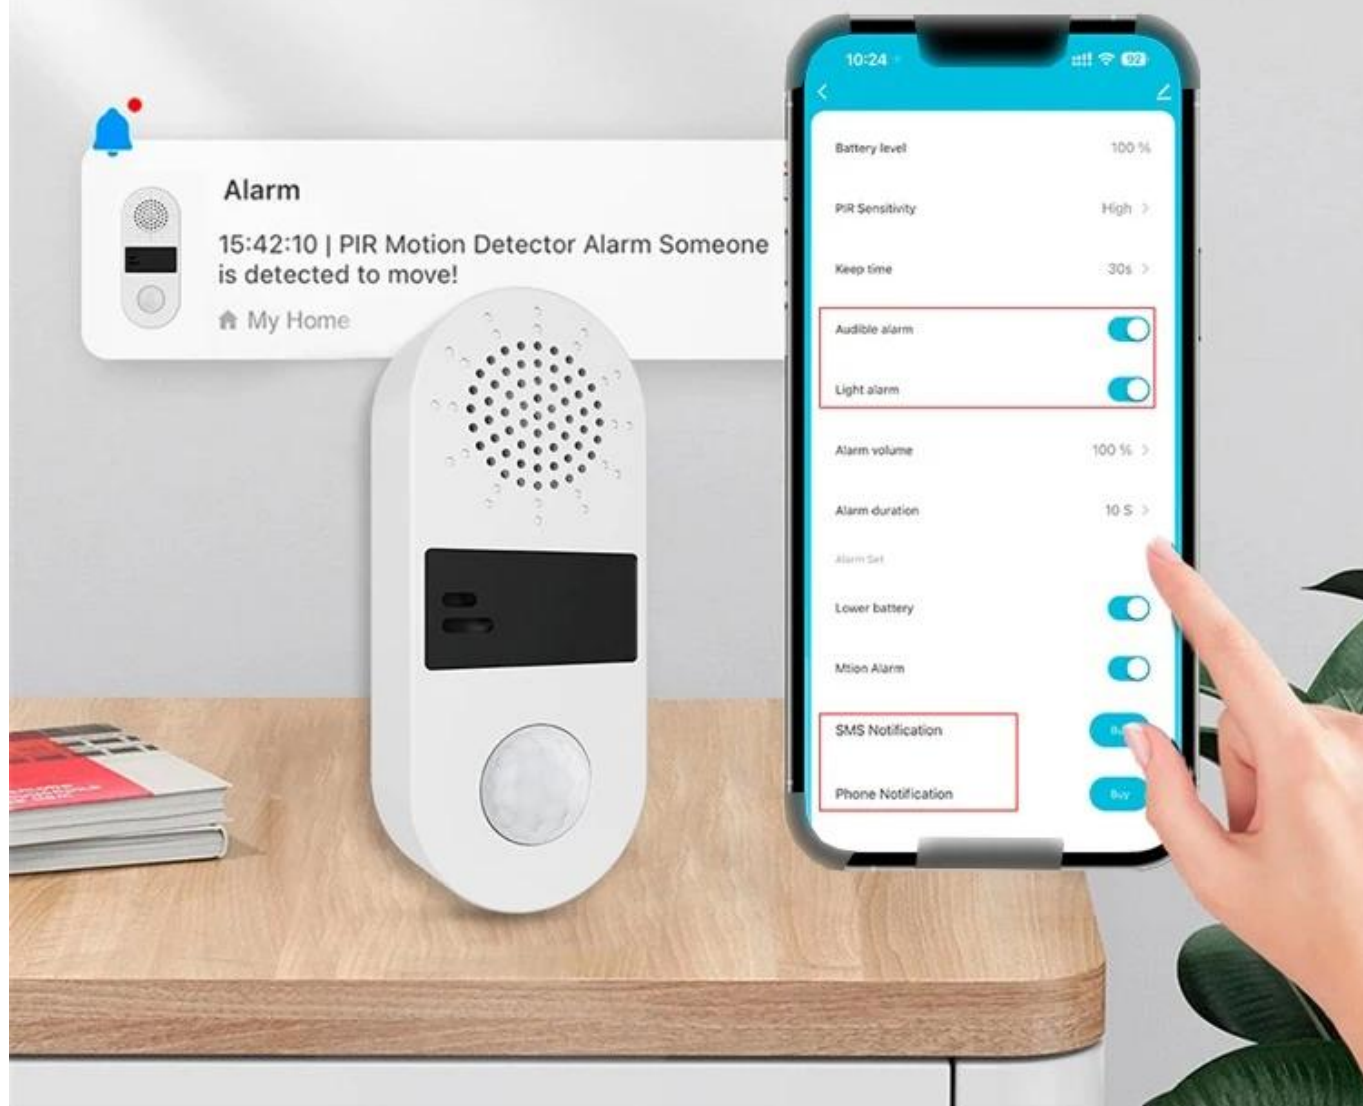

# Mobile APP control

24-hour remote monitoring, Knowing the situation at home through the mobile APP allows you to really travel with confidence

# Alarm Information Push Switch

Turn on this switch, trigger the sensor in the disarmed state, there will be a push message; Closed without

# Multi-Device Linkage

In the home, multiple sensors are installed in different locations, such as doors, kitchens, bedrooms, etc., through the connection with other smart home devices, smart life can follow you where you go

# Family Sharing Control

Main account has the exclusive permissions, one click to share the permissions with the whole family. let the family enjoy the fun of smart life!

## INTELLIGENT SECURITY PROTECTION

---

Wireless Type :	2.4G Wi-Fi / Zigbee3.0
Alarm volume:	130DB
Standby current:	<20uA
Battery:	AAA*2
Operating Temperature:	-10 Celsius - 40 Celsius (14degF-104degF)
Operating Humidity:	20% - 85%
Storage Temperature:	-10 Celsius -60 Celsius (14degF-140degF)
Storage Humidity:	0% - 90%
Standby time:	12 months
